

KAWASAKI Z 1000 (2010)

SLIP-ON MEGAPHONE EXHAUST SYSTEM

The dynamic, bold looking roadster offers a great tuning platform for motorcyclists who desire something special. Our sporty and lightweight SLIP-ON megaphone systems offer a great balance between price and performance and represent the first step in the exhaust system tuning process.

The mufflers are made of titanium, which gives a special MotoGP touch to our SLIP-ON system. The system is not street legal.

PERFORMANCE

Measurements of the Akrapovic SLIP-ON megaphone system on the Kawasaki Z 1000 (without noise damper):

The Akrapovic SLIP-ON megaphones will deliver a big power and torque increase from a simple modification. Power output is smoother over the entire rpm range. We measured a max. power increase of 3.1 HP at 10200 rpm. The torque is increased over the entire rpm range, which is exceptionally useful for more comfortable and smooth riding. With our SLIP-ON systems you will also save more than 6 kg in comparison with the stock mufflers.

PERFORMANCE			
	stock	AKRAPOVIC	max. increased power
max. rear wheel power HP / rpm <small>(measured on SuperFlow Cycle Dyn)</small>	128.0/9800	130.8/9950	3.1/10200
